Title: 49 U.S.C. Section 5339 – Alternatives Analysis Program

(OMB Number: 2132-0571)

Background: Under Section 3037 of the Safe, Accountable, Flexible, Efficient Transportation Act - A Legacy for Users (SAFETEA-LU), the Alternatives Analysis Program (49 U.S.C. 5339) provides grants to States, authorities of the States, metropolitan planning organizations, and local government authorities to develop studies as part of the transportation planning process. The purpose of the Alternatives Analysis Program is to assist in financing the evaluation of all reasonable modal and multimodal alternatives and general alignment options for identified transportation needs in a particular, broadly defined travel corridor. The transportation planning process of Alternatives Analysis includes an assessment of a wide range of public transportation or multimodal alternatives, which will address transportation problems within a corridor or subarea; provides ample information to enable the Secretary to make the findings of project

justification and local financial commitment; supports the selection of a locally preferred alternative; and enables the local Metropolitan Planning Organization to adopt the locally preferred alternative as part of the long-range transportation plan. FTA intends to evaluate program implementation by collecting information such as project milestones and financial status reports.

Respondents: State and local government and Metropolitan Planning Organizations.

Estimated Annual Burden on Respondents: 18 hours for each of the respondents.

Estimated Total Annual Burden: 383 hours.

Frequency: Annual.

Title: Over the Road Bus (OTRB) Accessibility Program

(OMB Number: 2132-0570)

Background: The Over-the-Road Bus (OTRB) Accessibility Program is authorized under section 3038 of the Transportation Equity Act for the 21st Century (TEA–21), Public Law 105–85, as amended by the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA–LU), Public Law 109–059, August 10, 2005. OTRBs are used in intercity fixed route service as well as other services, such as commuter, charter and tour bus services. These services are an important element of the U.S. transportation system. TEA–21 authorized FTA’s OTRB Accessibility Program to assist OTRB operators in complying with the Department’s OTRB Accessibility regulation, “Transportation for Individuals with Disabilities” (49 CFR part 37, subpart H). The legislative intent of this grant program is to increase the number of wheelchair accessible OTRBs available to persons with disabilities throughout the country.

Respondents: Charter/tour service operators, fixed route companies, small mixed service operators.

Estimated Annual Burden on Respondents: 8 hours for each of the respondents.

Estimated Total Annual Burden: 800 hours.

Frequency: Annual.
